

Greetings!

Welcome to CodeChella Madrid. This is the first time Mixtape Sessions has done an in-person event, so we are nervous but very excited to try it! This document contains the essential information you'll need for this workshop.

If you still have questions after looking through this document, then please do not hesitate to email any questions. There are three people you can contact, but typically you should email Scott and Kyle. Additionally, our local host is Agustín an associate professor at CUNEF Universidad. There may be some questions better asked to him, but we can cc him if needed. Our emails are as follows:

Kyle Butts

buttskyle96@gmail.com

Scott Cunningham

causalinf@mixture.consulting

Agustín Casas Lupiáñez

acasas@cunef.edu

Course Material

The entire course material will be hosted on a github repository <https://github.com/Mixtape-Sessions/Madrid-2024>. It is currently a work-in-progress, but all the material will be uploaded by the end of the workshop.

During the workshop, we will have live coding portions where we will ask attendees to try coding up these estimators themselves and try out interactive apps. For this reason, we recommend everyone bring their laptops to the workshops.

Discord

We will be using discord during this workshop. We will monitor the discord during the workshop for any questions that may be off-topic but you want to ask about. But more importantly, we want people to be able to meet one another and make plans for dinner and things like that. So, I

recommend joining early and saying hi in the #meeting-eachother channel! To join, use this link: <https://discord.gg/uTkJyKwNf>.

Coffee and Food

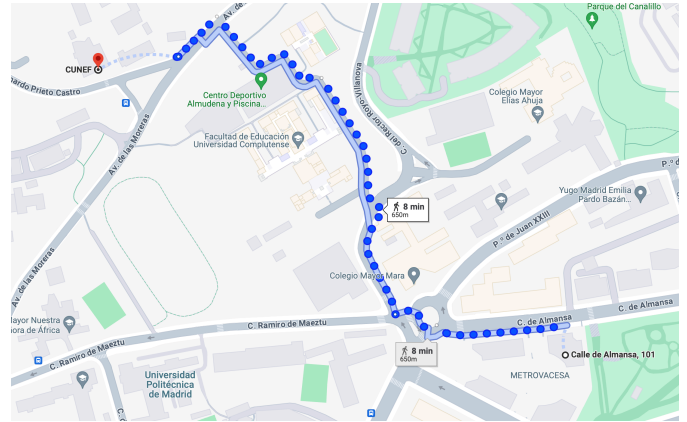

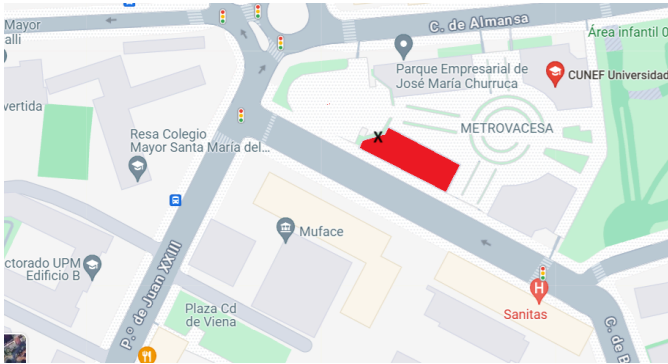

Each morning of the workshop at 10:30am, fresh coffee and pastries will be provided outside the auditorium. Lunch will take place from 1 – 2:30pm each day. You grab a bite either at the campus cafeteria or head to the surrounding area. On Wednesday, food is generously being provided by CUNEF Universidad for us. A lot of restaurants are to the south on Av. de la Reina Victoria and to the East.

Schedule

This is our tentative schedule. Note that on Wednesday, May 29th, we will be going to a different lecture hall. The reason is that on this day, lunch will be provided for attendees by CUNEF Universidad.

	Day 1 Monday, May 27 CUNEF Auditorium	Day 2 Tuesday, May 28 CUNEF Auditorium	Day 3 Wednesday, May 29 Aula Magna	Day 4 Thursday, May 30 CUNEF Auditorium
9 – 1pm	<i>Scott Cunningham</i> Core DID	<i>Scott Cunningham</i> Covariates	<i>Scott Cunningham</i> Callaway and Sant’anna & Sun and Abraham	<i>Kyle Butts</i> Imputation DID & Synth
1 – 2:30pm	Lunch	Lunch	<i>CUNEF</i> Provides Lunch	Lunch
2:30 – 3:30pm	<i>Scott Cunningham</i> Core DID	<i>Scott Cunningham</i> Bacon Decomposition & Callaway and Sant’anna	<i>Scott Cunningham</i> Callaway and Sant’anna & Sun and Abraham	<i>Kyle Butts</i> Imputation DID & Synth
3:30 – 5pm	Coding Lab	Coding Lab	<i>Dan Rees & Mark Anderson</i> Doing Applied Research Workshop	<i>Dan Rees & Mark Anderson</i> Doing Applied Research Workshop

Location

On Monday, Tuesday, and Thursday, the event will be at CUNEF Universidad at C. de Almansa, 101. The left image shows the specific building and the entrance is marked on the map by the x.

On Wednesday, we will be going to a different building (because of the provided lunch). It is C. de Leonardo Prieto Castro, 2. See the map on the right.
